Change it Up! Transfer to:

Savings Share ID: _____

OR

Save to Win Share ID: _____

When you enroll in SESLOC's Change It Up, you understand that the amount of any SESLOC debit card purchase made by a cardholder issued a debit card associated with your checking account will round up to the next whole dollar and the excess of the purchase amount transferred into your share savings or Save to Win share certificate account.

Here's How it Works: At the end of the business day, for debit card purchases posted to your checking account, we will aggregate the amount needed to round up each transaction to the next whole dollar and process a single transfer from your checking account to your designated share savings or Save to Win share certificate account. The transfer will show as "**Change It Up Transfer**" on your account statement.

Example: Debit card purchases for \$15.24 and \$28.51 post to your checking account. At the end of the day, a single transaction of \$1.25 (\$0.76 + \$0.49) is transferred from your checking account into your share savings or Save to Win share certificate account as a **Change It Up Transfer**.

We will not round up debit card purchase transactions or initiate a Change It Up Transfer, on any day when the available balance in your checking account is less than \$25.00 before the aggregated Change It Up Transfer amount is calculated. If a debit card purchase is refunded or cancelled, the corresponding Change It Up Transfer remains in your savings account.

We may cancel or modify the SESLOC Change It Up service at any time without prior notice. Change it Up service is not available for business debit cards.
